

The Cynthia

4 Bedroom ♦ 3 Bath ♦ Two-story ♦ Generous 16x21 master bedroom with huge private bath & walk-in closet ♦ 2247 SF

You'll love the full-length wrap-around porch which envelops the Cynthia. Inside, a generous great room flows into a U-shaped kitchen boasting stainless-steel appliances; there is a cozy breakfast nook. A downstairs bedroom could be used as an in-law suite or a home office. Upstairs, a cavernous 16x21 master bedroom opens into a private master bath with exquisite tiling around a whirlpool tub. There's a huge walk-in closet. Two other bedrooms, both with walk-in closets, complete the upper level. Add your own personal touches to this plan and make it your own!
