The master suite boasts two walk-in closets, a private bath with whirlpool tub and separate shower, and a his and hers vanity. Two other bedrooms--on the opposite side of the home--each have their own private bath. Above the great room, a 11x27 loft is perfect for a computer room or a home office. A generous 3-car garage rounds out this floor plan. Add your own personal touches to this plan and make it your own!
