

The Jacob

3 Bedroom ♦ 2½ Bath ♦ Open floor plan with 16x20 great room flowing into generous-sized kitchen with walk-in pantry ♦ Master suite with huge walk-in closet and private bath with whirlpool tub and full shower ♦ 1763 SF

An open floor plan makes the Jacob perfect for informal gatherings. The generous 16x20 family room, with its vaulted ceiling, opens up to a spacious covered rear porch with a great view of the surrounding private ravine lot. The kitchen, also under a vaulted ceiling, features a center island and a cavernous walk-in pantry. The master suite is huge, with its own private bath boasting a whirlpool tub, a separate shower, and an impressive walk-in closet. Two other bedrooms--at the opposite end of the home--share a second luxurious bath. A laundry room connects the home to the 2-car garage. Add your own personal touches to this plan and make it your own!
