

The Lauren

3 Bedroom ♦ 2½ Bath ♦ Generous 17x17 family room opens to rear porch ♦ First-floor master suite with huge walk-in closet, whirlpool tub and shower ♦ 1700 SF

Luxury and bold style--all on one level. The Lauren invites you right in; the entryway opens to both a formal dining room and a generous 17x17 family room. The family room is perfect for informal gatherings; cooler days can be spent gathered around the fireplace, while summer evenings can be spent mingling with guests on the adjoining covered rear porch. The kitchen is filled with sleek, stainless-steel appliances. The master suite features its own bath, complete with whirlpool tub, shower, and walk-in closet; it is on the east wing of the house, separated from the other bedrooms for privacy. The other 2 bedrooms, on the west side, share a second luxurious bath. Add your own personal touches to this plan and make it your own!
