

# The Tyler

4 Bedroom ♦ 2½ Bath ♦ Two-story open great room with wall of windows ♦ Master suite with huge private bath & walk-in closet ♦ 2787 SF

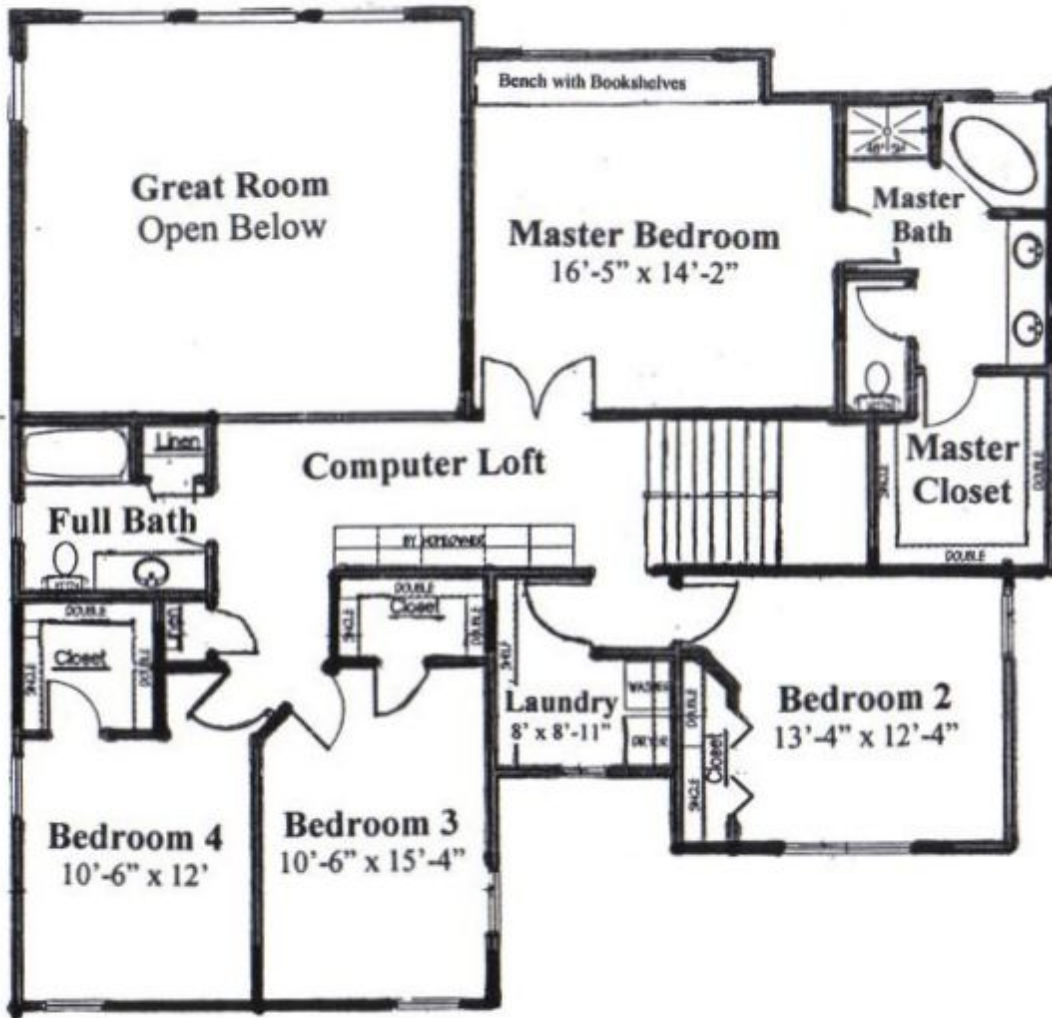

The Tyler's entryway will knock your socks off. A towering wall of windows embraces the dramatic 2-story great room; the great room flows gracefully into a modern kitchen and cozy breakfast nook. There is a first-floor den. Upstairs, a master bedroom features a private master bath with a whirlpool tub, a separate shower, and brushed-nickel fixtures. There's a 2nd-story laundry room and computer loft. Three other bedrooms--each with good-sized closets--share a second spacious bathroom. Add your own personal touches to this plan and make it your own!
