Incredible! The Serenity has plenty of space for the whole family to spread out. The in-law suite creates a private area within the plan for Grandma to have her own space, yet also be close to the rest of the family. The master suite has a spacious master closet and a sitting area for the owners to enjoy. Other highlights include a three-car garage, laundry/mudroom, dining room, breakfast nook and two-story great room. Add your own personal touches and make this plan your own!
